📄 PROFILE

I am a dedicated and ambitious individual currently pursuing my Master's degree at Chitkara University, where I completed my undergraduate studies in Computer Science as part of the Class of 2019. I am deeply passionate about web development and full stack development, with a primary focus on front-end development.

🎓 EDUCATION

📁 PROJECTS

Spotify V2.0

A fully functional Spotify clone that mirrors the renowned music streaming platform with a clean and intuitive user interface. Leveraging my skills and creativity, I successfully implemented all the essential functionalities, ensuring an immersive music experience for users.

SkillsSync

SkillsSync is a groundbreaking project that redefines education. With Next.js, Shadcn-Ui, Tailwind CSS, Prisma, Supabase, and Stripe, it offers a streamlined interface for seamless navigation, structured course creation with chapters, secure payment integration, immersive video learning, and personalized course completion certificates.

Shop-Cart

Shop-Cart is a full stack and a fully functional e-commerce web app for all the users to buy your favorite electronics like headsets, phones and much more. The project is made using MERN STACK and contains of three main categories namely: client and admin. The client contains the page where user can authenticate, search products, add products, do payments, see order history, profile and much more. The admin can see the number of users , create new admins, create products , view and delete orders etc.

CERTIFICATES

- JavaScript Course With Certification: Unlocking the Power of JavaScript [↗](#)
- Beginner Full Stack Web Development: HTML, CSS, React & Node [↗](#)
- Machine Learning Foundations: A Case Study Approach [↗](#)

ORGANIZATIONS

05/2023 – 03/2024
Chennai, India

Virtusa

Intern

Employed as an full stack intern and worked on a team project in the front-end team.
